Product Lines

Protective cases, bags, and organized storage systems for communications and intelligent hardware.

PRODUCT LINES

Starlink Protective Cases

Starlink Gen 3 and Mini hard cases with fitted EVA layouts, cable storage, router and power-adaptor compartments, and private-label packaging.

PRODUCT LINES

Outdoor Communication Equipment Protection Bags

Protective bags with organized storage for cables, wires, batteries, power adapters, routers, and related accessories.

PRODUCT LINES

Drone Operation Accessories

Examples include foldable drone landing pads, wind-resistant ground stakes, storage bags and Protective case for drone service teams and channel buyers.

Starlink Gen3 flagship protective case

MODEL TOY620 · Best-seller in the US and EU · OEM-ready

Hard Case for Starlink Gen3

Case Only, Not Include Gen3 and Any Other Accessories

Precision custom fit

1:1 EVA insert secures the dish, router, power adapter and accessories.

Military-grade protection

Impact-resistant shell with shock-absorbing lining; IP67 water and dust protection.

Organized for deployment

Dedicated cable and tool compartments reduce setup time in the field.

Built for overlanding

Ergonomic handle and secure twist latches for RV, camping and mobile teams.

130 cm enterprise drone landing pad

MODEL DJI773 · Designed for heavy-duty and enterprise drone operations

- 01 130 × 130 cm**
Fits DJI Matrice 350/300, Inspire 3 and comparable platforms.
- 02 Anchored for rotor wash**
Four reinforced ground pegs help prevent displacement.
- 03 All-terrain protection**
Creates a clean landing surface on gravel, mud or tall grass.
- 04 Fast field handling**
Two-sided high-visibility design; folds to 43.5 cm for transport.

PS5 & PlayStation VR2 Protective Backpack

All-in-one storage and transport solution for console, VR headset and accessories

KEY SELLING POINTS

01

All-in-One Storage Design

Fits the PS5 console, PS VR2 headset, charging dock, controllers, cables and accessories in one backpack.

02

Protective Interior Structure

Soft lining, thickened foam padding and separated compartments help reduce impact, friction and movement.

03

Reliable Daily Protection

High-quality nylon exterior helps protect against scratches, dust, splashes and light outdoor exposure.

04

Comfortable to Carry

Reinforced dual shoulder straps and ergonomic back support improve comfort during longer carrying periods.

05

Practical for Travel and Daily Use

Suitable for daily carrying, short trips, gaming parties, dorm use and moving between locations.

Connecting Shenzhen innovation with global markets

One operating model, two specialist teams, one accountable supply partner

Our mission

Help overseas brands and channel partners access factory-level R&D, original design assets and agile product iteration - backed by professional international service.

Factory direct · Original design · Agile R&D · Bilingual service

SHENZHEN

PS5 bag protection

Private label

130 cm drone landing pad

DJI773 · PU · Foldable

Private label

Engineering precision meets field-ready design

01 Protection engineering

Rugged PP/ABS shells, shock-absorbing EVA and product-specific fit.

02 Space optimization

Purpose-built cable slots, accessory bays and hidden storage.

03 Portable experience

Compact, foldable formats that fit professional field workflows.

04 Brand differentiation

Structure, materials, colors, packaging and kit combinations.

Full-spectrum OEM/ODM for your brand

From concept and structure to retail-ready packaging and compliance

01 Logo & brand identity

02 Packaging design

03 Labels & manuals

04 Materials & colors

05 Precision EVA molding

06 Private / white label

ONE ACCOUNTABLE WORKFLOW

Structure → appearance → packaging → compliance → scaled production

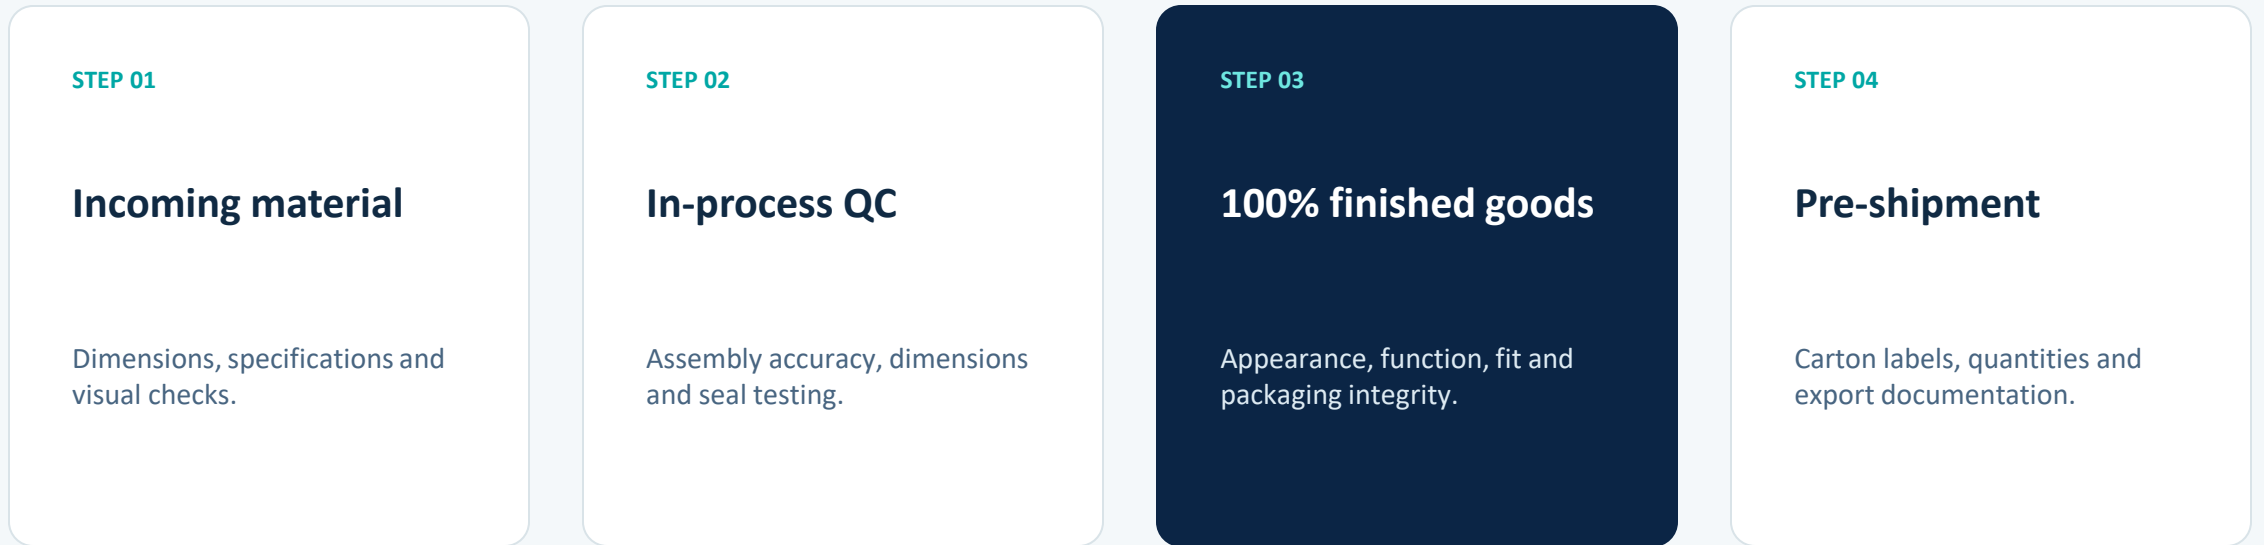

Shenzhen R&D and manufacturing teams translate your brand brief into production-ready specifications.

Source-factory execution, from sampling to batch delivery

01	Material preparation	PP, ABS, EVA and PU input control.
02	Sewing & assembly	Standardized work instructions across stations.
03	Seamless bonding	Waterproof sealing for IP67/IP68 construction.
04	Packaging & kitting	Labels, accessories and retail-ready presentation.
05	Warehousing & logistics	Batch fulfillment, samples and export coordination.

End-to-end quality control from materials to shipment

Dedicated QC team · AQL 2.5 reference · CE/FCC support · 100% finished-product inspection

Evidence that supports procurement confidence

Original design & patents

A growing portfolio of structural and appearance innovation assets.

VERIFIED · R&D ASSETS

Certifications & test reports

Support for CE, FCC and project-specific compliance documentation.

VERIFIED · COMPLIANCE

Production & QC evidence

Production records, QC documents and batch-delivery evidence.

VERIFIED · MFG CAPACITY

A clear six-step path from inquiry to delivery

01 Requirements

Category, channel, brand and timeline

02 Solution design

Function, structure, packaging and cost

03 Sample validation

Prototype, testing and optimization

04 Packaging

Labels, manuals, kits and display needs

05 Production & QC

Scheduling, in-process checks and PSI

06 Continuous supply

Upgrades and market-led iteration

Commercial terms: T/T · L/C · Other terms available by project

Complete support at every stage

A single team coordinating product, brand, production and delivery decisions

01

Needs consultation

Translate channel and brand objectives into a clear product brief.

02

Rapid prototyping

Use Shenzhen R&D to shorten sampling and time-to-market.

03

Flexible customization

Adapt structure, appearance, packaging and kit combinations.

04

Global logistics

Coordinate safe, on-time delivery for international distribution.

Beyond the transaction

A seamless experience from initial consultation to ongoing product iteration

LONG-TERM SUPPLY PARTNERSHIP

Stable quality. Clear communication. Continuous improvement.

01

Dedicated account ownership

One contact from inquiry through after-sales.

02

Milestone transparency

Real-time updates across sampling, production and delivery.

03

Proactive iteration

Recommendations shaped by market and channel feedback.

04

Consistent delivery

Quality and supply continuity for long-term programs.

LET'S BUILD THE NEXT PRODUCT

Build together. Shape the future.

Choose iRadar for factory-backed innovation, responsive OEM/ODM execution and professional international service.
